APPKC Standard of Care Summit Success

Below you will find a short summary from Dr. Kyle Bryan regarding the success of the standard of care summit. We hope you were able to attend and participate. If you were unable to attend, there are several references listed below for further information.

On May 16th, over 80 pharmacists and pharmacy interns from across the profession came together for the **Standard of Care Summit** organized by the **Advancing Pharmacy Practice in Kentucky Coalition (APPKC)** at the UK College of Pharmacy, and the energy in the room was electric.

Comprised of 7 member organizations, the work that APPKC does to move pharmacy practice forward in our state shows just how strong we are when we come together and unite around a shared vision. I cannot wait to see where we go as we work to advance pharmacy practice in Kentucky towards the standard of care regulatory model, a framework that will expand access to care for our patients and empower pharmacists to practice at the top of their education, training and experience.

We highly encourage you to listen to the following podcasts to learn more about the Standard of Care Regulatory Model.
